Ad-Shield Talent Partnership: roles, terms and fees

Prepared for Ad-Shield, presented by Nu People with Talento Consulting as search partner.

> To the Ad-Shield team,
>
> This proposal sets out how Talento Consulting, working with Nu People, will deliver Ad-Shield's U.S. hiring. It brings five open roles into a single statement of work: the two engineering roles, Software Engineer, Anti-Adblock and Software Engineer, Revenue, and three business roles currently open on the Ad-Shield careers page.
>
> It compares three ways of working: standard contingent recruitment, a retained search for the two engineering roles, and a five role retained statement of work. The more Ad-Shield commits, the lower the rate. The five role statement of work saves $70,875 against standard contingent terms, and every role beyond five is charged at 20%.
>
> The engineering roles call for exceptional people who are rarely on the market, and Ad-Shield is competing with well funded companies to hire them. A retained search gives these roles dedicated time and a focused, headhunted approach from intake to close.
>
> **Martin Wickes**, CEO, Talento Consulting

Parties

This proposal is made between **Ad-Shield, Inc.** ("the Client"), **Nu People** ("the Partner") and **Talento Consulting** ("Talento"), the Partner's search firm for these roles.

Statement of work 1: five roles

For the purpose of this proposal, these five roles form Statement of Work 1. They are reference data: any role can be switched out for another Ad-Shield role, up to five in total, on the same terms. Each retainer starts only at that role's intake, so retainers follow as roles open and can be staggered.

ROLE	TEAM	LOCATION	BASE RANGE	MEDIAN BASE
Software Engineer, Anti-Adblock	Engineering	NYC or San Francisco	$200k to $280k	$240,000
Software Engineer, Revenue	Engineering	NYC or San Francisco	$180k to $220k	$200,000
Head of Strategic Partnerships	Business	New York	$200k to $250k	$225,000
Sr Manager, Partnerships & Strategy	Business	New York	$140k to $170k	$155,000
Manager, Publisher Sales	Sales	New York	$110k to $140k	$125,000
Total, SOW 1				**$945,000**

Engineering ranges follow Talento's benchmarks for this search (HUMAN Security, Cloudflare, Levels.fyi NYC senior SWE, founding engineer data). Ad-Shield does not publish ranges for the three business roles, so their ranges are estimated from comparable New York ad tech postings (FIA Tech, Kargo, adMarketplace, Verve, Taboola, Wunderkind), an average median base of $168,333, and are confirmed at intake. All three are set above typical postings: the Head of Strategic Partnerships is a scarce New York leader with adblock and publisher relationships, and the two sales roles sell high ticket enterprise deals to major publishers. Fees use the median of each range; final fees follow actual first year cash compensation as defined in the terms.

Fee comparison: contingent, retained and the five role SOW

Total fees for all five SOW 1 roles under each model:

The five role retained SOW saves the Client **$70,875** against standard contingent terms of 30%, and **$23,625** against retaining each role at 25%. For the two engineering roles alone, a retained search saves **$22,000** against contingent, and **$33,000** inside the five role SOW.

Savings by model

SCOPE AND MODEL	RATE	BASE	CLIENT FEE	SAVING VS CONTINGENT	SAVING
Two engineers, standard contingent	30%	$440,000	$132,000	n/a	n/a
Two engineers, retained	25%	$440,000	$110,000	$22,000	17%
Two engineers, inside the five role SOW	22.5%	$440,000	$99,000	$33,000	25%
All five roles, standard contingent	30%	$945,000	$283,500	n/a	n/a
All five roles, retained at 25%	25%	$945,000	$236,250	$47,250	17%
All five roles, five role retained SOW	**22.5%**	**$945,000**	**$212,625**	**$70,875**	**25%**

Fee per role

MODEL	APPLIES TO	FEE	FEE PER ROLE	SAVING VS 30%
Standard contingent	Role by role, no commitment	30%	$56,700	n/a
Retained	Two engineering roles, dedicated search	25%	$47,250	$9,450
Five role retained SOW	**Both engineers plus three business roles**	**22.5%**	**$42,525**	**$14,175**
Programme, six plus roles	**Every role beyond five**	**20%**	**$37,800**	**$18,900**

Based on the SOW 1 average median base of $189,000.

Terms

TERM	DETAIL
Retained payment	20% of the expected fee for each role, invoiced at that role's intake, not on signature. Retainers start role by role and can be staggered as roles open. Each is credited in full against that role's success fee, and the balance is invoiced on the hire's start date.
Contingent payment	Fee invoiced on the hire's start date. Contingent searches run on a best efforts basis, without dedicated commitment.
Fee basis	First year cash compensation: base salary plus any guaranteed bonus and sign on payment. Commission, variable or target bonus, and equity are excluded.
Statement of work	SOW 1 is reference data. Roles can be switched out for other Ad-Shield roles, up to five, at the SOW rate.
Volume rate	Beyond five roles, every further role is charged at 20%. To keep the lowest rate, a new role must be registered within 90 days of the last. For every 90 days without a new role, the rate goes up one tier for later roles: 20% to 22.5%, then 22.5% to 25%. Roles already registered keep their rate.
Cancellation	Retained roles closed with no hire carry 10% of the estimated fee, from 21 days after intake.
Replacement guarantee	Free replacement if a hire leaves within 90 days of starting.
Candidate ownership	Any candidate presented and hired within 12 months, into any role, carries the agreed fee.
